EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sean A. Kaufhold on Wednesday, July 28, 2004.

The application has been amended as follows:

Claim 1. A fish bite indication device for removably positioning on a fishing rod having fishing line strung therethrough, said device comprising:

a ring member having a generally circular shape, said ring member having a substantially smooth outer surface, said ring member having an inner diameter generally between ½ inch and 2 inches, said ring member comprising a plastic material having buoyancy in water, wherein said ring member is positionable over an end of the fishing rod such that said ring member is moved upwardly on the fishing rod when the fishing line is pulled outwardly away from the fishing rod;

a loop being attached to said ring member, said loop being positioned on an outer circumference of said ring member, said loop having an inner diameter smaller than an inner diameter of said ring member; and

an elongated tether having a first end and a second end, said first end being attached to said loop.

Art Unit: 3643

Cancelled claim 4.

Claim 6, line 16, replaced "may secure" with --is capable of securing--

Claim 6, line 16, inserted --member-- after both occurrences of "ring"

Claim 6, line 16, replaced "of" with --off--.

Claim 6, line 17, inserted --member-- after "ring".

2. The following is an examiner's statement of reasons for allowance:

In regard to claims 1, 5, and 6, the prior art of record does not disclose the loop both attached to the ring member and being positioned on an outer circumference of the ring member and the elongated tether having a first end and a second end, the first end being attached to the loop. The term "tether" has been interpreted as "1. A rope, chain, or halter..." in Webster's II New Riverside University Dictionary 1994.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
